

DESCRIPTION

Structure

The Maratea Trolley is made of Ø mm. 32x1.5 and Ø mm. 25x1.5 galvanized steel round tube, designed to accommodate No. 1 N.U. 100-liter bin. No. 2 galvanized sheet metal storage trays, thickness mm. 1.2, clips for locking the bin and tool-holder attachments positioned on both sides, and No. 02 Ø mm. 600 spoked wheels with unalterable solid rubber treads.

Total weight: 20Kg

Datasheet

Maratea cart

Product code 173

Rev. 0 of 10/06/2016

COLOR FINISH AS PROVIDED IN THE CATALOG

RAL 6005
(Steel parts)

Customers can request a different finish from the RAL color options available on our website.

[Product code 145 - Garbage bin](#)

PRODUCT VARIANTS

[Product code 173-BIS - Double Maratea cart](#)

ANTICORROSIVE TREATMENTS AND FINISHES

Sandblasting

Manual sandblasting process with river sand, which increases the porosity of metal surfaces and thus the adhesion of thermosetting powders.

Anti-corrosive application

First painting cycle with an anticorrosive thermosetting powder primer based on epoxy resins and special pigments. It provides adequate protection against weathering.

Anticorrosive polymerization

Baking in an industrial curing oven at a temperature of 180°C. During this stage, the powder turns into a uniform, smooth and durable coating.

Colored finish application

Final coating cycle with thermosetting powders. Application follows the same principles as the anticorrosive.

Polymerization colored finish

Final baking in an industrial curing oven at a temperature of 180°C. The procedure follows the same principles as the curing of the anticorrosive. The powder is transformed into a uniform coating, and the surface appearance takes on the characteristics of the chosen color type, e.g. smooth, textured, wrinkled, etc.

DELIVERY

Product supplied in assembly kit with steel hardware and instructions for mounting and grounding.

FIXING

The product does not require anchoring to the ground.
