## DESCRIPTION

### Structure

What distinguishes the Snake litter bin is the sinuous shape, characteristic of the snake. Square-shaped litter bin frame, made of shaped panels of galvanized sheet metal, equipped with an upper ring with a reduced hole for the introduction of waste, obtained by laser cutting and made of 3 mm thick galvanized sheet metal, complete with hinge for opening and extracting the internal container. The frame is characterized by stylised decorative shapes, obtained by laser cutting and made of 2 mm thick galvanized sheet metal. The litter bin is equipped with holes at the base for fixing to the ground.

**Overall weight:** 38Kg

## COLOR FINISH AS PROVIDED IN THE CATALOG

RAL 8012  
( Decorative panels )

RAL 1015  
( Basket and ring )

Customers can request a different finish from the RAL color options available on our website.

## PRODUCT VARIANTS

Product code D827-BIS - Snake large trash bin with lid and ashtray

## ANTICORROSIVE TREATMENTS AND FINISHES

### Washing

Spray treatment for removing oil and grease from metal surfaces using special degreasing liquids. Subsequent drying in dryer for 15 minutes.

### Sandblasting

Manual sandblasting process with river sand, which increases the porosity of metal surfaces and thus the adhesion of thermosetting powders.

### Anti-corrosive application

First painting cycle with an anticorrosive thermosetting powder primer based on epoxy resins and special pigments. It provides adequate protection against weathering.

### Anticorrosive polymerization

Baking in an industrial curing oven at a temperature of 180°C. During this stage, the powder turns into a uniform, smooth and durable coating.

### Colored finish application

Final coating cycle with thermosetting powders. Application follows the same principles as the anticorrosive.

### Polymerization colored finish

Final baking in an industrial curing oven at a temperature of 180°C. The procedure follows the same principles as the curing of the anticorrosive. The powder is transformed into a uniform coating, and the surface appearance takes on the characteristics of the chosen color type, e.g. smooth, textured, wrinkled, etc.

## DELIVERY

Product supplied in assembly kit with steel hardware and instructions for mounting and grounding.

---

## FIXING

The product is prepared for fixing to the ground using anchor bolts and expansion plugs.

---
