

1/5

DESCRIPTION

Structure

Waste bin designed for use by children. Playful lines and bright colors, all child-friendly.

- The barrel is made of a single shaped box, with the characteristic "pin" shape, made of 1.5 mm thick galvanized sheet metal, with shaped panels cut using laser technology.
- Upper ring made of 3 mm thick galvanized sheet metal. With a small hole for inserting waste.
- Internal container made of galvanized sheet metal.
- Support pole made of 60 mm section galvanized steel round tube.

Overall weight: 11Kg

COLOR FINISH AS PROVIDED IN THE CATALOG

RAL 3020
(Stem)

Brilliant aluminum
(Pole)

Customers can request a different finish from the RAL color options available on our website.

ANTICORROSIVE TREATMENTS AND FINISHES

Washing

Spray treatment for removing oil and grease from metal surfaces using special degreasing liquids. Subsequent drying in dryer for 15 minutes.

Sandblasting

Manual sandblasting process with river sand, which increases the porosity of metal surfaces and thus the adhesion of thermosetting powders.

Anti-corrosive application

First painting cycle with an anticorrosive thermosetting powder primer based on epoxy resins and special pigments. It provides adequate protection against weathering.

Anticorrosive polymerization

Baking in an industrial curing oven at a temperature of 180°C. During this stage, the powder turns into a uniform, smooth and durable coating.

Colored finish application

Final coating cycle with thermosetting powders. Application follows the same principles as the anticorrosive.

Polymerization colored finish

Final baking in an industrial curing oven at a temperature of 180°C. The procedure follows the same principles as the curing of the anticorrosive. The powder is transformed into a uniform coating, and the surface appearance takes on the characteristics of the chosen color type, e.g. smooth, textured, wrinkled, etc.

DELIVERY

Product supplied already assembled with steel hardware and instructions for ground fixing.

FIXING

The product must be installed by cementing.
